

Participant Information Sheet and Consent Form

Research as part of Coursework – DECO2500/7250 Human-Computer Interaction

Title	Understanding people's needs for the design of a screen-time management and break reminder application
Short Title	Contextual Inquiry into screen-time
Investigators	s4696515 Tyson Schneider s4884138 Dejun Chyi s4891107 Hanseong Kang s4913568 Joshua Borg s4890399 Jamie Williams
Location	The University of Queensland, St Lucia, Australia

What is this?

We are students at UQ conducting user inquiries for our Assessment titled "Understanding User Needs for Technology Design". This is not formal research.

This project looks at why people use social media so often. We want to understand how it affects people's habits and feelings.

Your participation

Participation involves either or both:

- **Survey Completion (Approximately 10 minutes)** – You will answer multiple-choice and scale-based questions to help identify user trends.
- **Interview Participation (Approximately 20 minutes)** – A student researcher will ask open-ended questions about your experiences and needs related to the research domain. Interviews may be recorded for analysis.

Your participation is voluntary. Your insights will contribute to a better understanding of user needs and may in designing future technologies.

Any data collected will be anonymised, securely stored and permanently deleted after completing Semester 1 2026.

Consent

I have read and understood the information provided in this Participant Information Sheet. I agree to participate in this research project, knowing that my participation is voluntary and that I can withdraw at any time.

☒ I consent to participating in a survey/interview (circle one or both).

☒ I consent to the interview being audio recorded (optional, tick if you agree).

Name, Signature and Date
